Computer Labs: The one in the Main Building is always open however there may not be anyone to help you, so the one in the Business Building is further away, but can always give you assistance if you need it - as long as you bring your username and your password. If you forget your password you need your student I.D. to get one so remember to take it to the computer lab desk when you want to have your password reset and once you do that you have to reset your password the first time you log in so don't forget your password and save yourself some time.

Welcome to your fresh opportunity for cognitive creativity, professional development and emotional satisfaction...

... sure, that's what they always say at the beginning!
